DETAILED ACTION

The Amendment, filed on November 24, 2003 has been entered and is acknowledged by the Examiner.

Cancellation of claim 1 and addition of claim 6 have been entered.

Applicant's arguments filed November 24, 2003 have been fully considered and are persuasive. The rejection of the application has been withdrawn. No any prior art disclosing applicant's invention has been found and therefore the application is in condition for allowance.

Allowable Subject Matter

Claims 2-4 and 6 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 2, the references of the Prior Art of record fails to teach or suggest a basis metal alloy comprising a cathode having the combination of the limitations as set forth in claim 2, and specifically comprising the limitation of weight concentration C_{Al} of aluminum satisfying the relationship

$C_{Al} \leq 0.14 \times (0.1 - C_{Mg})$ where C_{Mg} is the weight concentration of magnesium.

Claim 4 is allowable for the reasons given in claim 2 because of its dependency status from claim 2.

Regarding claim 3 the references of the Prior Art of record fails to teach or suggest a basis metal alloy with nickel, magnesium and aluminum comprising a cathode with the combination of the limitations as set forth in claim 3, and specifically comprising the limitation of weight concentration C_{Al} of aluminum is such that the percentage of the

Art Unit: 2879

surface of the alloy below the emissive layer covered by crystallites is less than or equal to 3% after activation of the cathode.

Claim 6 is allowable for the reasons given in claim 3 because of its dependency status from claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
